RoHS Compliance Statement

Calex Manufacturing Co., Inc. RoHS compliant products meet the requirements defined under the European Union Restriction on the use of Hazardous Substances (RoHS) Directive, 2011/65/EU and requirements of amending Annex II to RoHS 2 (Delegated Directive 2015/863)

Substance	*Threshold Level
Cadmium	0.01%
Hexavalent Chromium	0.10%
Lead	0.10%
Mercury	0.10%
Polybrominated Biphenyls (PBB)	0.10%
Polybrominated Diphenyl Ethers (PBDE)	0.10%
Bis(2-ethylhexyl) phthalate (DEHP)	0.10%
Butyl benzyl phthalate (BBP)	0.10%
Dibutyl phthalate (DBP)	0.10%
Diisobutyl phthalate (DIBP)	0.10%

RoHS compliant products contain no more than 0.1% lead (Pb) by weight per homogeneous material other than any allowed exemption(s) included in the RoHS Directive. Based on available sources from raw material suppliers or quantitative analytical data, where available, Calex might use any of the following RoHS exemptions for RoHS compliant products:

RoHS Exemption	RoHS Exemption Description
6(c)	Copper alloy containing up to 4 % lead by weight.
7(a)	Lead in high melting temperature type solders (i.e. lead- based alloys containing 85 % by weight or more lead).
7(c)-I	Electrical and electronic components containing lead in a glass or ceramic other than dielectric ceramic in capacitors, e.g. piezoelectronic devices, or in a glass or ceramic matrix compound.

The model number for Calex products as displayed on the label and website/catalog will not change. The packing slip, however, will identify the part with the suffix “(RoHS)” after the model number.

Since Calex provides various kinds of products, exemption usage in each single model may be different, we will reply RoHS declarations by individual product.

For RoHS compliance declaration for a specific model, please contact us at sales@calex.com.
